

TCPi | Transforming Clinical Practice Initiative

The American Board of Family Medicine and the American Academy of Family Physicians have teamed up in the PRIME Support and Alignment Network to join local Practice Transformation Networks in the landmark \$685 million federal Transforming Clinical Practice Initiative.

Together, we're offering free practice facilitation, technical assistance, tools, and ABFM Maintenance of Certification support and alignment, to help bring joy back to practice!

Enroll in a Practice Transformation Network in your state to be eligible for:

- 1) **Customized practice assistance, tools, and coaching** you will need to succeed in the transition to value-based reimbursement under MIPS and Alternative Payment Models.
- 2) **ABFM Maintenance of Certification Part IV credit** for enrolling and engaging with your Practice Transformation Network team. For each year of enrollment, tell us about your participation, get another year of Part IV credit.
- 3) **Family Medicine's only specialty outpatient quality improvement and population health registry, the PRIME Registry™** free for 3 years to the first 6,000 ABFM-board certified Family Physicians. This powerful tool comes with an online dashboard to validate your quality patient care using your EHR data, set benchmarks, and then target opportunities for improvement. You can also track and automatically report your progress on 41 clinical quality measures that matter to family medicine and primary care and help generate evidence for even better measures to come!
- 4) **Member Interest Group for AAFP members** to connect with other family physicians with shared interests in the Transforming Clinical Practice Initiative. Members will connect for peer support and learning, to encourage Practice Transformation Network engagement, and to meet face-to-face at the FMX 2016, the AAFP's largest annual meeting of Family Physicians.
- 5) **Continuing Medical Education series for credit** at the FMX 2016, offering Family Physicians CME and collaborative learning sessions to support the transition to value-based reimbursement and bring joy back to practice!

For more information on the Practice Transformation Network(s) enrolling in your state, email us at: support@primesan.org (please include your name, practice location, and NPI).
